

TAQDEER OVERVIEW

Today, Dubai is recognised as a leading global economic hub and one of the world's most popular cities for living and working for people from all over the world.

With the rapid pace of development and the launch of many mega construction projects, the influx of expatriate workers from across Asia rose sharply. This necessitated laws and regulations that safeguard the rights of both employees and their employers.

And so, under the directive of His Highness Sheikh Hamdan bin Mohammed bin Rashid Al Maktoum, Crown Prince of Dubai and Chairman of the Executive Council, the Taqdeer Award was launched for distinguished companies operating in construction, manufacturing, services and free zones in the Emirate of Dubai.

This prestigious event not only provides employers and employees with deserved recognition, it provides a competitive advantage for local, regional and international business opportunities.

VISION

To recognise and reward companies that create and maintain world-class working conditions, and encourage other organisations to aspire to achieve the same high standards.

MISSION

To ensure the welfare of employees, create greater job satisfaction and foster higher levels of productivity in a stimulating environment.
